Office of Multicultural Affairs

We're here to help students from underrepresented populations thrive at SDSM&T while preserving cultural distinctiveness.

- ◆ Welcome and orientation for minority students
- ◆ Guidance, advocacy and problem-solving help
- ◆ Friday Lunches for networking and social support
- ◆ Facilitate study groups
- ◆ Connect to tutors through Tech Learning Center, AISES and other sources
- ◆ Identify and apply for scholarships
- ◆ Locate internships and co-ops through Career Services and other resources
- ◆ Promote appreciation on campus for diverse cultures
- ◆ Exposure to diversity efforts of the corporate world
- ◆ Opportunities for professional development
- ◆ Feathering ceremony for American Indian graduates

The American Indian Science & Engineering Society (AISES) promotes excellence, leadership, and opportunities in education and professional development for American Indians and Alaska Natives. AISES enriches the fields of science and engineering with Native traditions and strengthens communities with knowledge, resources, and innovation.

The South Dakota School of Mines & Technology chapter of AISES was founded in 1989, and is committed to increasing the number of American Indians in the science, technology, engineering, and mathematics fields. Support is offered to Native American students in a number of ways:

- ◆ Annual AISES national & regional conferences
- ◆ Scholarships
- ◆ Pathways job placement service (co-ops, internships, and permanent employment)
- ◆ Leadership Development Conference
- ◆ Networking & social support
- ◆ Community service & involvement
- ◆ Winds of Change quarterly AISES magazine

School of Mines students will effectively:

- ◆ Engage in life-long learning
- ◆ Apply technical understanding
- ◆ Value a global perspective
- ◆ Lead and serve on teams
- ◆ Communicate
- ◆ Respect self and others
- ◆ Value diversity
- ◆ Act with integrity
